

DEENATHAYALAN S

MERN Stack Developer | System Administrator

deenathayalan9039@gmail.com | +91 93618 72670

GitHub: github.com/DEENABE (MERN projects with authentication & REST APIs)

PROFESSIONAL SUMMARY

Full Stack MERN Developer & System Administrator with 2+ years of experience in building scalable web applications and managing enterprise IT infrastructure. Skilled in REST API development, authentication systems, server management, and network troubleshooting. Proven ability to improve system performance, reliability, and operational efficiency.

TECHNICAL SKILLS

Frontend	React.js, HTML5, Tailwind CSS, CSS3, JavaScript (ES6+), Redux
Backend	Node.js, Express.js, RESTful APIs, Middleware Architecture, Role-Based Access Control (RBAC)
Databases	MongoDB, Mongoose ODM, Schema Design & Indexing, Aggregation Pipelines, SQL (Basic – Joins, Queries)
Tools & Version Control	Git, GitHub, Postman
System Administration	Windows Server, Linux (Ubuntu), Active Directory, Networking (TCP/IP, DNS), VMware, Hardware Troubleshooting
Other Technologies	JSON, CRUD, API Integration, MVC , Vercel, Render

PROFESSIONAL EXPERIENCE

Full Stack Developer & System Administrator | Hindustan Aeronautics Limited Bangalore | Oct 2022 – Present

- Developed and maintained full-stack web applications, contributing to both frontend and backend modules.
- Designed RESTful APIs and backend logic with a focus on performance and scalability.
- Worked extensively with databases, optimizing queries, procedures, and data models.
- Collaborated with UI/UX, QA, and backend teams to deliver production-ready applications.
- Supported deployment, monitoring, and troubleshooting of applications in enterprise environments.

System Administrator

- Managed user accounts, roles, and permissions using Active Directory

- Monitored system performance and ensured high server uptime • Performed network troubleshooting (TCP/IP, DNS, connectivity issues)
- Handled system backup and recovery processes.

Key Achievements

- Developed an IT Asset Management System, reducing manual effort by 40%.
- Improved backend response time and system performance by 30%.
- Built internal tools that improved operational efficiency and data tracking

PROJECTS

Social Media Application

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

- Developed a full-stack MERN application to manage user posts, profiles, and interactions.
- Implemented secure authentication and authorization using JWT (JSON Web Tokens).
- Designed and developed RESTful APIs for scalable backend communication.
- Built complete CRUD operations for posts, comments, and user data.
- Implemented role-based access control for enhanced security.
- Integrated MongoDB for efficient and reliable data storage.
- Optimized application performance and ensured responsive UI/UX.

EDUCATION

Bachelor of Computer Science and Engineering

University College of Engineering – Ramanathapuram (2018–2022)

CGPA: 7.6 / 10

CERTIFICATIONS

- MERN Stack – Entri-Elevate
- Core Java & Software Testing – Besant Technologies
- Python Programming – SSI
